

Literacy Across the Curriculum

Subject Wider Reading

Lists

“Reading is to the mind, what exercise is to the body”

Richard Steele

What is the purpose of this list?

The purpose of this list is to encourage our learners to read, enjoy and learn from a range of sources beyond their immediate classroom experience. Hopefully, by guiding the learners towards relevant and enriching texts which have been carefully selected by departments, we can instil both independence and a more organic engagement in all of their subjects.

Podcasts

Some of these may be a bit advanced, but well worth having a look/listen and saving to your favourites

Philosophy Bites is a podcast series featuring philosophers being interviewed on specific topics

In our Time (BBC, Radio 4) is an archived radio programme with 50 minute programmes on all sorts of topics, bringing together experts from that particular field. The programmes will be very helpful later on, but the first 10 minutes of each programme has a brief summary of the scholar/topic and gives an excellent introduction. Get into the habit of looking at what programmes are under the Religion & Philosophy categories.

The Infinite Monkey Cage (BBC Radio 4) Describes itself as “witty, irreverent look at the world through scientists' eyes. with Brian Cox and Robin Ince”; often very philosophical and quite fun!
