

## Study Skills: Mind Maps

### How to create them:

- Get the **information** for the topic that you want to revise.  
-Use exercise books, revision guides, textbooks or websites.
- Put the **name** of the topic into the **centre** of the mind map.
- **Divide** the topic into **subheadings**: each one will become a main **branch** and will be a **different colour**.
- Draw out the **structure** of the main branches and **label** them.
- Then for each branch divide into smaller, thinner **sub-branches** and label them.
- Add **images** and pictures to the sub-branches.

### Top Tips:

- Use lots of colour to organise ideas.
- Use images to aid your memory.
- Spread it out over a whole page.
- Pin up the mind map and learn a branch at a time.
