

Dear Learner,

Learning from Home

We know that self-isolating or learning from home for any period of time can be a challenge. We have designed our resources and our learning experiences around you and the time you will be accessing school virtually. If you follow the materials as you would your normal timetable, you will cover the curriculum at the speed and in the detail we need you to in order to stay on track. Where ever possible, the materials will be accompanied by a video. Where this cannot be done, staff will share Power Points and worksheets. Please note that if your bubble is sent home from school, you should also look out for the additional enrichment activities to stretch and challenge you and the consolidation tutorials which will be live and advertised via your school email account. Please make sure you contact staff at school if you are in anyway struggling to access or complete the material. For who to contact, please see the list below:

- For individual lessons, please email your class teacher;
- For specific technical issues, please contact Ms Watts: j.watts@woottonparkschool.org.uk;
- For wellbeing support, please contact Mrs Chambers: h.chambers@woottonparkschool.org.uk;
- For pastoral support, please contact your Head of Year or Mrs MacDonnell: s.macdonnell@woottonparkschool.org.uk.

We recommend you start your period out of school by completing our Wellbeing and Organisation Day. However, if you have completed the activity already or would rather move straight onto the learning sessions, please do so. The video is in two parts and takes you through the several helpful exercises:

Part 1: Introduction and Wellbeing <https://www.loom.com/share/a971bb7193df4a0f9e7c7a016cea9b3f>

Part 2: Organisation <https://www.loom.com/share/fd717bccdec24ba4871c570274ab2260>

Then please access your lesson materials from SharePoint. Please navigate to the documents for your year group by following the appropriate link below. All the work set by teachers will be in subject folders and will be clearly labelled by subject and then week by week.

Year 7:
